TITLAS GUARD ULTIMATE SOLUTION

We are poised to serve governments, law enforcement agencies, and their respective vendors with high tech solutions for the security, safety, and surveillance industries as well as consumer level security .

Our security devises and equipment engineers in UK, and USA custom design many solutions for the security industry. With backgrounds in RF engineering, signal analysis, and mechanical engineering.

We design prototype, test, and manufacture with advanced technologies based on highly research scientific findings. From building components, sub-assemblies, and full production, the applied science of our engineers is unlimited to requirements of our clients. They build new technologies to meet new challenges, as well as customize existing solutions to meet client requirements.

TITLAS GUARD in-depth group of professional engineers and technicians can travel directly to any country, listen to the issues, and proffer solution. Our expertise and seasoned security teams can offer intensive hands-on training for clients, sales support for resellers, and services such as: Site Surveys and Risk Assessment Services. We review existing security structures and point out potential threats, improve protection against weaknesses in communication security, electronic privacy, and physical safety.

We believe detection of weaknesses can help yield proper counter measures and other security solutions.

Our Risk Assessments capability reflects in our Physical security for protective forces as well as high risk individuals all of which are achievable, be it in form of solution to counter remote controlled weapons with our IED Defeat technologies, securing a facility with communication control to defeat cellular espionage, implementation of a cellular surveillance network for Governments, or other concerns involving the RF spectrum. At TITLAS GUARD, Solutions can be offered for protecting premises, information, assets, trade secrets, and most importantly lives.

We help governments generate revenue with our special equipments designed for Airport Security, Customs Posts, Seaport remote container xray machine that exposes all contents, Highway raider, and Electronic toll gate. Park & Pay machine with inbuilt CCTV camera.

With these and many more, your security could not be in a better hand than TITLAS GUARD, the ultimate security solution. .
